Message from the Director

Dear Students,

99% of the students don't clear the Civil Services Exam due to two simple reasons: poor strategy and lack of commitment. When I was preparing, I could not find anyone who could just tell me the right way & stop me if I was going wrong, probably because people (who guide students for this exam) themselves don't have experience of cracking the exam & people who clear this exam become inaccessible to the students.

When I cracked this exam for the first time, then I found the correct strategy and therefore I cracked this exam again easily for the second time. Infact when I passed on the same strategy to my younger brother, Ankit Jain, He also cracked this exam easily, infact he took half the time I took to clear the exam & got IPS.

In my training at LBSNAA, when I met many other officer friends, I realized that many toppers had some or other family members in Civil Services. It means, this exam has certain strategy and once one learns that strategy, one can easily and repeatedly clear this exam.

I started Ensure IAS to guide the aspirants with clear cut strategy so that students crack it easily without getting confused unnecessarily.

So far, I have helped more than 1000 students to clear the exam like Mayur (IAS, AIR - 5), Shaurya Arora (IAS, AIR-14), Ayan Jain (IAS, AIR-16) Subham Shukla (IAS, AIR - 43), Anjali (IAS, AIR - 44), Jayasree Pradhan (IAS, AIR-52) etc.

We at ENSURE IAS, ensure you a seat at LBSNAA by helping and working with you to find the right approach.

Come... Join Us to make your dream into reality !

Sir analysed it and found that I used to get nervous and after saying sorry once or twice, I used to make educated guess. But sir rectified it and said no matter how many times you say sorry but remain confident and composed. It worked for me and I **got 179 marks**. I believe it has been a factor for my selection this time. My sincere thanks to Sachin sir and ENSURE IAS for all the support.

All Doubts About IAS Exam / FAQs for Beginners

1. Why IAS is considered to be the BEST job in the country?

Every year top students from top colleges (IIT, IIM etc) prepare for IAS exam and feel extremely satisfied and happy. Since British time, no other job could match the charm of IAS. This job has so much prestige, status, respect and authority that people leave job of crores for getting this coveted job.

2. Why everyone must prepare for IAS at least once in college?

IAS preparation improves personality and enriches knowledge of everything so much that a student can crack any exam (like PCS, RBI, CAPF, CDSE, BANKING SERVICES, SSC ETC.) after preparing for IAS.

3. Is IAS exam really difficult?

People who could not clear this exam call it impossible, but there are people who clear it at the age of 21 in the very first attempt with very good rank. It means if students follow right direction and approach, anyone (even from not very bright academic background) can crack it easily.

4. How can it be prepared?

Step by step approach is the key. There are mainly 8 areas (like Polity, Economy, etc.). Best standard book of each subject should be read, understood and revised. Previous years questions and test series should be done after one reading of these. Current affairs and newspaper should be started once one is comfortable with the static part in the first 6 months.

5. My English is not good, can I crack it?

If you watch videos of many IAS toppers, you will realise that many toppers have poor communication skills and still they cracked it easily because this exam requires analytical skills rather than mere good language skills.

6. My current affairs and GK are not good. Can I crack it?

Every year more than 50% officers are from engineering background who have poor GK in the beginning but just after preparing for 1 year, they learn all the required subjects to crack the exam comfortably.

7. Why to waste fee of around 2 lakhs?

Annual fee of this course is not at all high, especially when these days, fee of School education is even much higher. You may crack with self preparation but it may take time. So, opportunity cost is huge. Thus, Rs. 2 Lakh is nothing once you crack all the hurdles of the exam smoothly.

8. How can someone train us for the toughest exam like UPSC, When they themselves have not cracked Pre?

ENSURE IAS is a venture of an IRS officer of 2016 Batch who cracked civil services multiple times. In fact under his guidance, his own brother also cracked civil services multiple times and currently he is also an IPS officer. In ENSURE IAS, many selected officers & highly experienced teachers teach the students.

9. Why some students start preparing after leaving huge salary packages?

After job, the true reality comes into picture. When high salary people compare their own college friends in IAS with huge authority, then they take decision of leaving high salary jobs and start UPSC preparation.

10. Should we take Engineering subject as an optional?

Every year more than 300 Engineers crack civil services but not even 50 students crack with engineering subjects. Public administration and some other humanities subjects are one of the best subjects to take.

11. Can one prepare for UPSC through YouTube?

YouTube videos are random so it takes huge time to find good video for any topic. YouTube videos are not complete. There are only some free videos from every institute just to attract students for full paid course.

12. Why college time is the best time to start IAS preparation?

If you ask from your parents or any senior then they will tell that they had more free time available during college days and there was no family/society pressure for job or marriage. In college there are frequent holidays and there are many gap periods between classes. But after college very less free time is available and everyone gets busy in job or other things.

13. Whether I should attend/participate in any college society/extra curricular activities.

College society/Extra curricular Activities do not play much role in future. Students must confine themselves to maximum one college society to have exposure and develop social skills but most of the time should be given to studies, which will have maximum impact in future.

14. Whether I should go for Post Graduation (PG)?

In India, almost every job related exam requires only graduation degree. PG does not give any additional benefit. If PG does not require attendance or efforts then it may be done otherwise a PG will affect the IAS preparation and job will be delayed. Most of the students who want to take government job first they generally do not go for PG.

15. How a student can manage time for IAS preparation during college days?

In Indian colleges, there are huge number of national holidays, gazetted holidays, VIP visits and international meets. Students get a lot of time during long summer, autumn and winter breaks and vacation in colleges. Morning and evening time are also completely free. In day time, there are many long breaks between the periods. Some students waste these free times that must be productively used otherwise.

16. Whether should I prepare for Easy/Lower Exam first or IAS/UPSC first?

If a student has prepared for 10th class, He/she can not solve the questions of 12th class. But if a student has prepared for 12th class, he/she can solve the questions of 10th class. The same goes with IAS exam. IAS exam is called **“Mother of all examinations”** as it improves knowledge of all the subjects. So, after preparing for IAS, all other government job exams can be cracked very easily. Other exams (e.g. PCS, Bank PO, CGL, RBI Gr.B, CAPF etc.) test factual knowledge only, which can be easily memorized after understanding the complete concept through IAS preparation.

17. Whether I should have “Plan B” or not?

Normally people advise that every student should have plan-B. But we strongly recommend that student who is planning to prepare for IAS must **NOT** have any plan-B.

There are **two reasons** for it: (i) If you prepare sincerely under our guidance and take every test on Sunday then you will be clearing IAS exam effortlessly and you will not require plan-B. (ii) After preparing for IAS in one year, you will develop so many skills that you can crack many other very good job exams like PCS, Bank PO, CGL, RBI Gr.B, CAPF etc. So, again you don't require the Plan-B at this stage.

18. What is the starting post in IAS?

Usually, the first posting is as Sub Divisional Magistrate (SDM).

19. What is the highest post in IAS ?

The post of Cabinet Secretary is the highest post in IAS. He plays very big role in policy making of this country.

20. Is IAS officer a VIP?

To a great extent, yes. Because the privileges and responsibilities one has as an IAS Officer, make her/him an important person.

The perception of the service being VIP has been for a long time. During colonial years, the Collector would travel on elephants, horses along with all his staff-cook, helper, orderly, etc. This created a perception among people that IAS (or more commonly, the Collector), is a VIP. Even now, when collector (DM) visits anywhere in the district, the entourage of people/ officials along with him/her give the impression of collector being an important person.

21. What is the salary and perks of an IAS officer?

The salary of any IAS officer is not limited to only monthly salary of 1 lakh to 2.5 lakh. They get good bungalow, car, petrol, medical benefits, multiple servants, authority, respect and job security. Overall, it is better than any high paid private job and that's why people leave job of crores to get into IAS.

22. Which Graduation subjects are the best for UPSC?

There is no absolute answer to this. The one, which you like the most is best for you. Yes, there are some popular and easy subjects like Public Administration, Political Science and International Relations, Sociology, Geography, History and Anthropology.

23. Why ENSURE IAS coaching is so popular among students?

ENSURE IAS is popular because of its to-the-point teaching, methodical planning, timely and regular delivery of tests and results and 24x7 availability of a topper in the form of a director in the institute, who gives the first-hand experience of both the examination and services.

24. How Sachin Jain Sir Cracked IAS Exam multiple times?

His persistent efforts, executing his plans, learning from the right sources, note making style, revision and regular tests, all these made him clear the exam many times.

25. Do questions get repeated in UPSC Prelims?

Yes, it has been observed that sometimes UPSC repeats few of its previous year's questions in Prelims exam.

26. How to choose optional subject for UPSC? Which optional subject is the best?

Selecting the right optional subject for UPSC plays a significant role in shaping an aspirant's strategy and performance in the examination. There are 48 Optional Subjects in UPSC.

Optional should be chosen on the basis of 10 Parameters:

1. Optional subject syllabus should be small. Optional subject can be covered in 2-3 months.
2. Optional should be easy to understand.
3. Interest and Passion
4. familiarity with a particular subject
5. Success rate
6. Overlap with the syllabus of General Studies.
7. Availability of study material (contents, books).
8. Availability of faculty
9. Scoring
10. Usefulness after selection

27. How many hours should I study to crack UPSC in 1 year?

We have given our classroom planner in which we will teach complete syllabus in 1200 hours and you can take additional double time of 2400 hours to study the same on your own. It means you can easily cover the complete syllabus in 3600 hours. So, if you can give 10 hours a day, you can easily clear the exam in 1 year.

28. How to prepare for the UPSC CSE Exam after 12th from the Zero Level?

UPSC Civil Services Examination (CSE) requires smart work, good planning, and disciplined study.

Some of the methods to prepare for this exam are as under:

1. **Exam Pattern:** Ensure IAS will help you understand UPSC CSE exam pattern. It consists of three stages:
 - Preliminary Examination
 - Main Examination
 - Personality Test
2. **Study Material:** Ensure IAS gives you study material such as NCERT books, standard books, Current Affairs Total (CAT) Monthly Magazines etc.
3. **Make Notes:** Summarize key points, facts and concepts in your own words for quick revision.
4. **Practice Previous Year Papers:** Solve previous years' question papers to understand the exam pattern, types of questions and time management.
5. **Tests and Practice:** Ensure IAS provides you regular test series and practice answer writing for Mains.
6. **Revision:** Revise your notes regularly.

29. Does handwriting matter in UPSC?

Handwriting remains a relevant aspect in the context of Union Public Service Commission (UPSC) examinations. While the trend in education and communication has shifted towards digital mediums, UPSC still values the candidate's ability to coherently express ideas through traditional handwritten responses. The handwritten format not only serves as a means of evaluating the candidate's clarity of thought and expression but also reflects the time management skills of the individual during the examination. Additionally, legible handwriting is essential for the examiners to understand and evaluate the answers correctly.
